“Virtual Security  
Operations Centre”

**DATACONNECT**

CYBER SECURITY - CONSULTANCY | SERVICES | TECHNOLOGY

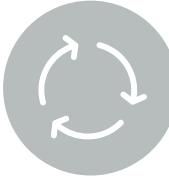

# WHAT ARE THE BENEFITS OF vSOC?

Reduce Demand on  
Your Team

Meet Regulatory  
Compliance

Continuous Visibility  
of Network, Assets  
and Devices

Sophisticated Threat  
Hunting

Faster Implementation  
Than Setting Up an  
In-House Team

Experience & Knowledge  
from Working in Multiple  
Environments

A Cost-Effective  
Approach

# DATACONNECT

**At Data Connect, we offer organisations end to end cyber security protection through a large portfolio of security services.**

We have established a highly accredited and experienced team of security specialists who are at the heart of our business. As a result, we were able to implement services that help customers with the most common challenges seen in the industry. Lack of visibility can often be a problem which is why we created a powerful console to give customers continuous visibility. We are proud to offer customers 'vSOC' delivered through our managed services and visibility in our console.

24/7 ALERTING

TECH AND HUMAN DRIVEN

END TO END CYBER SECURITY

FULL VISIBILITY

OUR TEAM WORK CLOSELY WITH YOU

EXTERNAL VERIFICATION

# vSOC MANAGED SERVICES

## vSOC CERT

**Cyber Essentials Review Tool:** Use our tool to stay compliant, monitor vulnerabilities, track progression & view remediation requirements

## vSOC AIM

**AIM:** Working with you to Assess, Improve and Maintain your cyber security posture. Ongoing support and assurance in your security

**DATA**CONNECT

# vSOC CONNECT CONSOLE

We understand the challenges organisations face in the ever-evolving threat landscape, where cyber attacks are hitting a new level of sophistication and attack surfaces are expanding. Managing cyber security within an organisation is a complex task, one that heavily impacts your budgets, time and internal resources.

Our console lets you integrate, manage and monitor all of Data Connect's managed services providing you with ongoing assurance that your organisation is protected. With our console, vSOC Connect, you will have easy access not only to a support desk and network engineers but also our highly experienced and dedicated SOC team.
